**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT/IAM Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT/IAM Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT/IAM Professional Services.

9. INDEPENDENT CONTRACTOR

All IT/IAM Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT/IAM Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

- (1) The offeror;
- (2) Subcontractors; and/or
- (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT/IAM PROFESSIONAL SERVICES AND PRICING

a. The Contractor shall provide a description of each type of IT/IAM Service offered under Special Item Numbers 132-51 IT/IAM Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT/IAM Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE: Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, and structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, and conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science

Rogers, Wicker, Rykman & Spedale LLC
Labor Category Descriptions
SIN 132-51: Information Technology Professional Services

1. IT Project Manager

Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.

General Experience: A minimum of three (3) years of professional experience in information system implementations.

Functional Responsibility: The IT Project Manager will utilize their comprehensive management skills along with functional and technical expertise to lead and manage IT project teams. The IT Project Manager will oversee the delivery of client solutions on time and within budget leveraging their knowledge of technology, industry & processes. The IT Project Manager will have outstanding interpersonal and communication skills ensuring the design and delivery is consistent with business project objectives, milestones and project methodology. The individual is capable to perform the following duties:

- Provide leadership to the IT project team
- Plan and manage a detailed work plan including resource allocation and utilization, scope control, issue management and risk analysis
- Adhere to project standards and requirements by IT project team
- Communicate project status, attends and facilitates project review meetings
- Lead client and IT project team through business process redesign activities and change management impacts
- Work with client and IT project team in the design and implementation of new organization structures and the design and development of training programs
- Help provide vision and strategy for the successful completion of the project

2. Senior Applications Systems Analyst

Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.

General Experience: A minimum of five (5) years of professional experience in information system implementations, post implementation support, business process redesign or change management.

Functional Responsibility: The Senior Applications Systems Analyst will utilize their comprehensive skills and significant technical and or functional experience to implement complex business solutions. The Senior Applications Systems Analyst will leverage their extensive knowledge of technology, industry and processes to provide direction and support to the IT project team. The Senior Applications Systems Analyst will have outstanding interpersonal, written and oral communication skills as well as a broad understanding of the project implementation process, participating in the delivery of business objectives, project priorities and milestones. The individual is capable to perform the following tasks:

- Define Business and Information System requirements
- Develop Functional and Technical designs
- Lead IT project team through process redesign, configuration, training, testing, pilot, prototype and post implementation delivery and support activities
- Oversee the development of software configuration, designs and computer programming
- Provide senior level subject matter expertise in a specific discipline and may direct activities of other expert and team resources
- Participate in quality reviews to ensure deliverables adhere to project standards and requirements

3. Applications Systems Analyst

Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.

General Experience: A minimum of three (3) years of professional experience in information system implementations, post implementation support, business process redesign or change management.

Functional Responsibility: The Applications Systems Analyst will utilize their strong analytical, technical and or functional experience to assist in the implementation of business solutions. The Applications Systems Analyst will leverage their knowledge of technology, industry and processes to provide support to the IT project team. The Applications Systems Analyst will have outstanding interpersonal, written and oral communication skills as well as an understanding of project implementation process, participating in the delivery of business objectives, project priorities and milestones. The Applications Systems Analyst will provide IT subject matter expertise in a specific discipline and may direct activities of other team resources. The individual is capable to perform the following tasks:

- Define Business and Information System requirements
- Develop Functional and Technical designs
- Provide process redesign, configuration, training, testing, pilot, prototype and post implementation delivery and support activities
- Participate in the development of software configuration, designs and computer programming
- Provide subject matter expertise in a specific discipline and may direct activities of other expert and team resources
- Develop documentation to support business processes, requirements, designs, testing, training, and briefings to support overall project
- Participate in quality reviews to ensure deliverables adhere to project standards and requirements

4. Senior Solution Architect

Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.

General Experience: A minimum of five (5) to eight (8) years of professional experience in information system implementations, post implementation support, process redesign and system integration.

Functional Responsibility: The Solution Architect Senior Solution Architect will utilize their comprehensive skills and significant technical and or functional experience to implement complex integrated business solutions. The Solution Architect Senior Solution Architect will leverage their extensive knowledge of technology to provide direction, lead and support to the IT project team. The Solution Architect Senior Solution Architect will have a broad understanding of the project implementation process, participating in the delivery of business objectives, project priorities and milestones. The individual is capable to perform the following tasks:

- Define Business and Information System integrated requirements
- Develop Functional and Technical integrated designs and processes
- Lead project team through design, development, configuration, training, testing, pilot, prototype and post implementation delivery and support activities
- Oversee the development of system integration, data mapping designs, identification of data sources and destinations, data integrity, error handling and audit tracking
- Provide configuration, designs and computer programming
- Develops and applies systems engineering and architecture design methods, processes, tools, and techniques to analyze total systems, technology, and process integration requirements across multiple application
- Provide subject matter expertise in a specific discipline and may direct activities of other expert and team resources
- Functional service delivery roles includes but are not limited to the following: Solution Architect, System Analyst and Programmer

5. Technical Analyst

Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.

General Experience: A minimum of one (1) to three (3) years of professional experience in information system implementations, post implementation support, process redesign and system integration and development.

Functional Responsibility: The Technical Analyst will utilize their comprehensive skills and significant technical experience to implement complex integrated business solutions. The Technical Analyst will leverage their extensive knowledge of technology, system design and development to provide direction, lead and support to the IT project team. The Technical Analyst will have a broad understanding of the project implementation process, participating in the delivery of business objectives, project priorities and milestones. The Technical Analyst will have outstanding interpersonal, written and oral communication skills to provide technical information to Technical and Non- Technical resources.

The individual is capable to perform the following tasks:

- Define Technical, Business and Information System integrated requirements
- Develop programs, integrates software applications, systems and databases
- Lead IT project team through Technical design, development, configuration, training, testing, pilot, prototype and post implementation delivery and support activities
- Provide comprehensive definition of all aspects of system development from analysis to verification of system performance
- Provide subject matter expertise in a specific discipline and may direct activities of other developers and team resources
- Support design and customization of workflow systems that provide seamless integration for application
